# 01 RCA Audio Cables 3M/5M

BaassFx RCA cables are designed to provide exceptional audio clarity and durability, making them a reliable choice for any audio installation. With lengths of 3M (10') and 5M (17'), these twisted RCA cables are built to deliver optimal signal transmission while minimizing noise interference. Featuring nickel-plated, male-to-male connectors, the cables ensure a secure and stable connection. The white color-coded ends allow for easy identification of the left and right audio channels. These cables excel in reducing noise, ensuring pristine audio quality. Designed with both performance and ease of use in mind, BaassFx RCA cables are the perfect solution for high-fidelity sound.

## 2-CHANNEL DIRECTIONAL RCA Audio Cables

- **3M/5M** Twisted Design.
- **Nickel-Plated Connectors** for high durability and clear sound transfer.
- **White Color Coding** for easy Left & Right identification.
- **Excellent Noise Reduction** technology ensures crystal clear audio.
- **Flexible Construction** for easy installation and concealment.
- **Paired Male to Male** RCA Connectors.
- **3M/5M Lengths** Available.
- **Bulk Packaging** for professional installers.

900 WATT

# 048GA Audio Installation Kit

BaassFx BFX-AIK8 kit ensures superior performance with durable components that handle up to 900W of power. It includes everything needed for a professional-grade installation, offering efficient power and signal transfer to support high-quality sound systems.

### INSTALLATION SUGGESTIONS

- Always check for any obstructions before drilling.
- Avoid sharp metal edges when routing wire through any metal panel.
- Grounding all components at the same point may help in reducing noise.
- Use fork terminals depending on amplifier.
- Use grommet for protection.
