RHINO 5000

4th Order Bandpass creates tight clean bass everyone loves from a sealed box but with a wider range of frequencies and higher output with superb power handling even down into the subsonic levels and is able to “get loud” while still sounding clean and having a good transient response.

SPECIFICATIONS

Rhino 5000	
Peak Power Output	1800Watt
RMS Power Output	200
Frequency Response	35Hz - 250Hz
Voice Coil Size	1.5", 4 Ohms

IN THE BOX

4th Order Bandpass, Instruction Manual, Warranty Card

BOOMBOX

The Boom Box enclosure enables you to get the best out of your bass subwoofer. The streamlined Round ports optimally reduce port noise and the internal acoustic foam absorbs the rear sound waves from the speaker driver. Thus, the subwoofer reveals its full power: the extreme sensations of the Performance line are within your grasps.

SPECIFICATIONS

Boombox	
Peak Power Output	1800Watt
RMS Power Output	200
Frequency Response	35Hz - 250Hz
Voice Coil Size	1.5", 4 Ohms

IN THE BOX

Boombox, Instruction Manual, Warranty Card
