

BaassFx[®]
Go Maxx

**PROFESSIONAL
AUDIO**

CABINETS

About Us

Founded in 2007, In India, BaassFx is regarded as one of India's leading manufacturers of sound application and installation products. For over 18+ years we are driven by people who are passionate about of sound and engineering. We bring a complete range of speaker cabinets in car as well as pro audio segments. Our installation expertise and support for external hardware in all the products shipped is the advantage we like to extend to our customers.

Each year we strive hard to produce superior range of products through continuous research, new manufacturing practices and upgrades using latest cutting edge technology. Our motto 'GO MAXX' is true in everything we do or set our eyes on to achieve. This motto thrives in our DNA which contributes to the quality, commitment and innovation in our products. Our craftsmanship brings efficient practices of production and precision in our products. We pack in best of the features and give thoroughly accurate and 'maxx' experience to listeners.

All this is matched with our distributor and dealer networks in Goa, Maharashtra, Karnataka, Chennai, Andhra Pradesh and Telangana. Our consistent investment in plantation, continuous improvement in manufacturing practices and recyclable packaging is our way to respect and care for Mother Nature.

Vision

To be world leaders in the field of sound engineering by bringing innovative, high performance and yet affordable products in the Car and Professional Audio Industry.

Mission

To make BaassFx the most desired brand by customers by building a strong network of 1 Lakh + dealers across India for unmatched reach and reliability. (PAN INDIA)

Values

Quality

Our products speak for themselves when it comes to quality. We at BaassFx are highly invested in intensive research to bring high quality products into the market.

Innovation

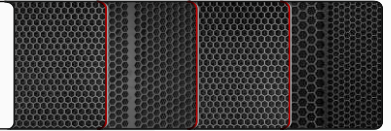

Innovation is the key to any new product or efficient process. At BaassFx, people look to apply new technology, effective people practices, better raw material, efficient production processes and flexible approach. We nurture ideas for continual product improvement.

Commitment

We fulfill our commitments and make sure that our customers have high satisfaction whenever they engage with the brand. We have high regard towards delivering the best and hence we commit only if we can deliver.

Customized Grills

We provide customized designs for grill to give that unique look to your Pro - Audio enclosures.

Wood Material for Speaker Cabinets

We use two types of plywood: **Customized Plywood**, designed for optimal sound performance, and **Russian Birch Plywood**, valued for its strength, stability, and smooth finish.

Exterior Paint/Texture Coating

In house research and development has resulted into our new product **PrimeTex**. This unique texture coating is manufactured to suit Indian climatic conditions and temperatures.

Sandtex Paint

Sparkling Patterns, Unique Sand textures, Elegant look and finish, Scratch and Abrasion Resistant.

Roller Paint

Textured black roller paint finish with a rugged, glossy, & durable protective coating surface appeal.

Wood Material for Speaker Cabinets

All our Pro Audio Enclosures are provided with L clamp to hold the walls of the enclosures. We provide T nuts and Allen key along with our cabinets for ease of servicing/ maintenance.

- 1) L -Clamp brings strength to enclosure construction.
- 2) It avoids any bass leakage.
- 3) 100% sound projection to the front side of the speaker is possible
- 4) It tightens the walls for sound enhancement.

Rubber Bush

We use highest quality of rubber bushes/stands which do not wear out with time. They are made proportional to the weight of the box.

Adhesive

BaassFx uses the best SH quality adhesive which is the key for any enclosure construction.

Packaging

We package all our products with protective plastic wrap before dispatching in corrugated boxes for extra protection from external factors.

PRO AUDIO 100 - 400 SERIES

BaassFx PRO Audio 100-400 Series speaker enclosures deliver unmatched clarity and power, Designed for anyone who values premium sound performance. Engineered with precision, They ensure deep bass, crisp highs, and rugged durability for any venue.

About Us

Founded in 2007, In India, BaassFx is regarded as one of India's leading manufacturers of sound application and installation products. For over 18+ years we are driven by people who are passionate about of sound and engineering. We bring a complete range of speaker cabinets in car as well as pro audio segments. Our installation expertise and support for external hardware in all the products shipped is the advantage we like to extend to our customers.

Each year we strive hard to produce superior range of products through continuous research, new manufacturing practices and upgrades using latest cutting edge technology. Our motto 'GO MAXX' is true in everything we do or set our eyes on to achieve. This motto thrives in our DNA which contributes to the quality, commitment and innovation in our products. Our craftsmanship brings efficient practices of production and precision in our products. We pack in best of the features and give thoroughly accurate and 'maxx' experience to listeners.

All this is matched with our distributor and dealer networks in Goa, Maharashtra, Karnataka, Chennai, Andhra Pradesh and Telangana. Our consistent investment in plantation, continuous improvement in manufacturing practices and recyclable packaging is our way to respect and care for Mother Nature.

Vision

To be world leaders in the field of sound engineering by bringing innovative, high performance and yet affordable products in the Car and Professional Audio Industry.

Mission

To make BaassFx the most desired brand by customers by building a strong network of 1 Lakh + dealers across India for unmatched reach and reliability. (PAN INDIA)

Quality

Our products speak for themselves when it comes to quality. We at BaassFx are highly invested in intensive research to bring high quality products into the market.

Values

Innovation

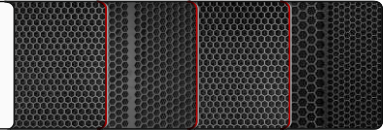

Innovation is the key to any new product or efficient process. At BaassFx, people look to apply new technology, effective people practices, better raw material, efficient production processes and flexible approach. We nurture ideas for continual product improvement.

Commitment

We fulfill our commitments and make sure that our customers have high satisfaction whenever they engage with the brand. We have high regard towards delivering the best and hence we commit only if we can deliver.

Customized Grills

We provide customized designs for grill to give that unique look to your Pro - Audio enclosures.

Wood Material for Speaker Cabinets

We use two types of plywood: **Customized Plywood**, designed for optimal sound performance, and **Russian Birch Plywood**, valued for its strength, stability, and smooth finish.

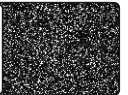

Exterior Paint/Texture Coating

In house research and development has resulted into our new product **PrimeTex**. This unique texture coating is manufactured to suit Indian climatic conditions and temperatures.

Sandtex Paint

Sparkling Patterns, Unique Sand textures, Elegant look and finish, Scratch and Abrasion Resistant.

Roller Paint

Textured black roller paint finish with a rugged, glossy, & durable protective coating surface appeal.

Wood Material for Speaker Cabinets

All our Pro Audio Enclosures are provided with L clamp to hold the walls of the enclosures. We provide T nuts and Allen key along with our cabinets for ease of servicing/ maintenance.

- 1) L -Clamp brings strength to enclosure construction.
- 2) It avoids any bass leakage.
- 3) 100% sound projection to the front side of the speaker is possible
- 4) It tightens the walls for sound enhancement.

Rubber Bush

We use highest quality of rubber bushes/stands which do not wear out with time. They are made proportional to the weight of the box.

Adhesive

BaassFx uses the best SH quality adhesive which is the key for any enclosure construction.

Packaging

We package all our products with protective plastic wrap before dispatching in corrugated boxes for extra protection from external factors.
